WELCOME TO SCOTBARK

Scotbark is a family business established in the 1970's. Scotbark is well known throughout the UK Landscaping Industry for the high quality of their Bark which is composed primarily of Scots Pine Bark (in excess of 80%). The Scotbark processing plant is located in the Scottish Highland Capital, Inverness, an ideal catchment site for the produce of Scotland's forests.

Scotbark are also suppliers of many other landscape materials such as decorative gravel, driveway gravel and beach cobbles, screened top soil, compost, decking materials and much more.

Scotbark supplies thousands of customers every year including companies such as Tern TV who produce Scotland's favourite gardening programme, The Beechgrove Garden, Local Authorities, Property Developers, Landscapers and many more.

Scotbark decided to make life easier for their many customers by opening an online store so that as well as being able to phone through orders they could simply order and pay online for a delivery direct to their door.

Our products are sourced from sustainable supplies and bagged at our plant in the Highlands.

BARK AND WOODCHIP

WE HAVE A RANGE OF BARKS AND MULCHES SUITABLE FOR EVERY JOB FROM ORNAMENTAL BARK MULCH, GARDEN AND GENERAL PURPOSE BARK MULCH AND PLAYBARK

ORNAMENTAL BARK MULCH COMES IN THREE DISTINCT SIZES
